Capability Statement

ABOUT NWI

Northwest Industries is a premier locally owned and operated company that has proudly served the North West region of Western Australia for over 25 years. We specialise in providing expert hydraulic support and are your go to source for high quality hoses and fittings. Our unwavering commitment to quality service and excellence in product supply sets us apart as the best in the industry.

At Northwest Industries, we understand that every client faces unique challenges, particularly in demanding sectors such as mining, offshore operations, and heavy machinery. This understanding drives our dedication to delivering reliable and cost-effective solutions tailored to meet your specific operational needs. Our extensive expertise and hands-on approach enable us to provide outstanding service that not only meets but often exceeds the expectations of our valued clients.

With a proven track record of exceptional customer service and support, we take great pride in fostering long-lasting relationships with our clients. Our team is committed to ensuring that you receive the highest level of support, reflecting our belief that your success is our success. When you choose Northwest Industries, you are partnering with a company dedicated to helping you thrive in your industry while maintaining the highest standards of quality and service.

CORE VALUES

INTEGRITY

EXCELLENCE

SAFETY

COMMITMENT TO SAFETY

COMMITMENT TO OTHERS

We prioritise the safety and well-being of our staff, clients, and the environment above all else. Our commitment to safety is unwavering, as we enforce a strict zero tolerance policy against any actions that could jeopardise the health and security of our staff and others on site. We believe that a proactive approach—through comprehensive training, regular assessments, and open communication—ensures that every individual involved in or around our operations can work in a safe and responsible manner. By adhering to these principles, we not only comply with industry regulations but also cultivate a culture of safety that reflects our core values.

SAFEGUARDING THE ENVIRONMENT

Our commitment to environmental safety is unwavering and integral to our operations. We plan and execute every project with the intent to have zero impact on the local ecosystem. We employ sustainable practices, utilise eco-friendly materials, and implement advanced technologies that promote conservation and minimise waste. We strive not only to fulfill our business objectives but also to preserve and enhance the environments in which we operate, setting a benchmark for safety and sustainability in our industry.

Safety is the foundation for success and innovation.

- Chris, Managing Director
Northwest Industries

OUR CAPABILITIES

HOSE MANUFACTURING AND TESTING

NWI supply a diverse range of high and low-pressure hoses for mining and offshore operations. We offer a comprehensive selection of hoses, fittings, and connectors, all locally stocked in Karratha.

Our services include fully stocked onsite containers, pressure testing, and full re-hose installation for both mobile and fixed plant equipment. We also provide live dart pressure testing with certification, with pressure testing capabilities up to 40,000 PSI.

ON SITE WORKS AND HYDRAULIC SUPPORT

We understand that downtime is costly, which is why we provide 24/7 support to keep your operations running smoothly. Our expert team offers on-site hydraulic services, including hydraulic flushing, tube bending, fault diagnostics, emergency repairs, hose manufacturing, pressure testing, and maintenance.

Whether you need system diagnostics, component replacements, or upgrades, we deliver high-quality solutions to minimise disruptions and ensure your equipment operates at peak performance. Trust us to keep your systems running efficiently.

MINE SPEC VEHICLE HIRE

Safety is crucial, and maintaining mining equipment and vehicles is a key operator responsibility. Northwest Industries ensures that our vehicles meet safety inspection standards for any site. We specialize in long-term rentals for underground and surface mining, with all vehicles thoroughly inspected and regularly monitored for safety. We understand that different mining sites have unique vehicle requirements. Our vehicles include standard specifications for mine sites across Western Australia, and we offer various accessories upon request. Enjoy the benefits of hiring our fleet of 4WDs and utes, fully equipped for mine operations.

OUR CAPABILITIES

SPECIALISED LABOUR HIRE

NWI provides labour hire solutions that are designed to meet the needs of both short-term and long-term projects, including on-going operations as well as shut-downs. Our proven ability to fulfill project requirements within the designated recruitment timeframe is a testament to our unwavering dedication to client satisfaction. Our team is fully equipped to manage all aspects of the project from start to finish, leveraging their extensive experience, sharp intuition, and outstanding problem-solving abilities. You can trust our experts to navigate any environmental, cost, or technological challenges that arise, guaranteeing a successful outcome.

EARTHMOVING EQUIPMENT AND PLANT HIRE

Your reliable plant hire partner in Western Australia. NWI offer essential, well-maintained machinery for major civil and mining projects across the state, ensuring efficient operations on your site. Our extensive fleet includes loaders, excavators, bobcats, positracks, backhoes, dozers, and graders. Our robust earthmoving equipment is critical for both small and large-scale projects, providing powerful and stable options for loading, earthmoving, and building solid infrastructure. Recognising that each site presents unique challenges, NWI ensure you have quality machinery that meets specific project needs.

SCAFFOLDING HIRE

Northwest Industries offers quality scaffolding tailored for large-scale mining projects across WA. Our extensive inventory features a variety of scaffolding equipment for hire in both steel and aluminium. Our modular scaffolding is versatile and durable, engineered to withstand Australia's challenging climate. Our tube and fittings scaffolding is adaptable, making it ideal for complex access challenges in construction, mining, and oil and gas sectors. With expertise in shutdowns, access solutions, temporary enclosures, and stair towers, we ensure outstanding quality.
